DVUV Promotes David Palange to General Manager

CLEVELAND, Ohio – August 23, 2017

DVUV is pleased to announce the promotion of David Palange from Operations Manager to General Manager, effective immediately. As General Manager, Palange will oversee all aspects of the business's operating activities including marketing, sales, manufacturing, and staffing.

Palange will direct the implementation and execution of the company's strategic plan to develop new product applications for UV-cured powder coatings on MDF and other wood substrates.

Michael Knoblauch, President of DVUV is enthusiastic for the future. "We are excited for David to transition into this new role. He is extremely knowledgeable in all aspects of powder coating MDF and his contributions have been an integral to the success of DVUV. I know he has great plans for the future of the business."

Palange has been with the organization since 2006 and has served as the company's Operations Manager for the past 4 years. David was also formerly the Production Supervisor and the Project Manager/Estimator at DVUV.

About DVUV, LLC

DVUV is an innovator of UV-cured powder coated Medium Density Fiberboard (MDF) components for a variety of industries including retail store fixturing, healthcare, hospitality, education & office furniture, architectural components and more. DVUV is an operating company of Keyland Polymer Material Sciences, LLC a global leader in the development, formulation, manufacture and application of UV (Ultra Violet) light curable solid materials; resins, powder coatings, 3D additive materials and other types of UV-cured and radiation cured solid materials.
